Location	The Stonhard Single Source Solution
Deeside Flintshire	
Size	
720m ²	
Installation Date	
November 2012	
Products Utilized	
HT Primer Stonproof RH7 Stonclad HT Stonkote HT4	

THE STONHARD DIFFERENCE

Stonhard is the world-leading manufacturer and installer of high performance polymer floor and lining systems designed for tough commercial and industrial environments. We deliver long lasting durable products to satisfy the most demanding design specifications and work with you from start to finish. You are protected with a single source warranty on both product and workmanship. Known around the world for excellence, the Stonhard name is synonymous with quality, performance and unmatched service.

The floor received a heavy shot blast to remove all contaminants and provide a decent key for the RH7 membrane. The extent of the cracking caused due to late saw cutting of the concrete slab is clear from the photograph.

HT Primer laid 24 hours previously receives the Stonproof RH7 to provide a barrier between the cracked substrate and the finished epoxy floor.

Stonkote HT4, incorporating texture 2 sand for slip resistance, is installed over the Stonclad HT epoxy mortar.
